**NA NA, Luigino Bruni : A Lexicon of Social Well-Being** before purchasing it in order to gauge whether or not it would be worth my time, and all praised A Lexicon of Social Well-Being:

We must quickly learn how to live well in the world as it is today, including the realm of work. We need to learn a new vocabulary of economics and markets that is more suitable to understand the present world and that is likely to offer us the tools to act, and perhaps improve it as well.

About the AuthorLuigino Bruni is Professor of Economics at Lumsa University, Rome, Italy. He works on ethics and economics, history of ideas, and philosophy of economics, with a special focus on the analysis of the interpersonal dimension in economic and social theory. He has rediscovered, together with Robert Sugden and Stefano Zamagni, the tradition of civil economy.
