Mike Marvin, Christina Lopez : Beyond the Divide: Men and Women Learning from Each Other before purchasing it in order to gage whether or not it would be worth my time, and all praised Beyond the Divide: Men and Women Learning from Each Other:

1 of 1 people found the following review helpful. Finally, the 'instruction manual' for the opposite sex...By LarMarI was lucky enough to be a beta reader of 'Beyond the Divide' and enjoyed Mike and Christina's 'no nonsense' approach to bridging the divide between the sexes. I made sure to do the exercises they include and came away with a much better understanding of my perceptions versus those of the females in my workplace. As a manager of more than 30

people, it was an valuable exercise to have a better understanding of how I am perceived, intentionally or not. I'd recommend this book for anyone that interacts on a regular basis with members of the opposite sex, especially in a professional setting such as a workplace or school. 0 of 0 people found the following review helpful. I must confess that Mike is my brother. Although ...By CustomerI must confess that Mike is my brother. Although I might be biased, I have a unique perspective on this book. Beyond The Divide is a milestone on a continuing journey. One of Mike's strengths is his ability to assess information and situations and come to well informed, personal conclusions. Another of his strengths is his ability to steadfastly pursue his beliefs and remain open to new discoveries. Both these traits serve this book well. Christina and Mike have been collaborators for quite some time. They work well together and their distinct perspectives bring balance and insight to their book. Beyond The Divide comes to us from passion, the pursuit of understanding, and years of real life experience in corporate, educational and spiritual settings. 0 of 1 people found the following review helpful. I love how the author's infuse the practice of virtues and ...By Cari MatejkaA refreshing approach and a call to higher standards...I love how the author's infuse the practice of virtues and high expectations from ourselves to understand, relate and learn from each other. This was an insightful approach and focus on strengths with easy solutions and practices that build instead of blame. Examples clearly illustrate fresh concepts. This is a must read for anyone who wants a positive, proactive, powerful environment conducive to collaboration, understanding, and the ideal combination for productivity! Personally or professionally, this creates cohesive unity!

The gender war is over -- and if it isn't, it should be. Most people are willing to work for gender equality that leads to positive and productive relationships with the opposite sex. Applying the current social and interpersonal tools available often leaves them feeling frustrated and exhausted. These "best practices" are built on a flawed adversarial system of "us vs. them" which perpetuates the gender gap - a divide between men and women. Mike Marvin and Christina Lopez help men and women get beyond the divide and experience the power of working together. As Marvin and Lopez collaborated, they concluded that true equality cannot be achieved until this gender gap is addressed and the culturally-reinforced division between men and women is eliminated. When men and women appreciate and learn from each other, they find new pathways to the social and civic change for which we are all striving. The thought-provoking, strength-based solutions proposed by the authors rely on principles they have developed while interacting with thousands of people in work, educational, and family environments. Marvin and Lopez present their insightful, in-depth wisdom based on their research, training, and experience. The result is a relatable and practical guide which helps men and women navigate their personal and professional relationships.

"Beyond the Divide is a fresh, original, deeply honest look at the barriers to genuine gender equality. It offers clear, accessible wisdom, and illuminating steps we can all take to heal and nurture our relationships within our families, workplaces, and educational systems. Simply brilliant!" ~ Linda Kavelin-Popov, Best selling author and Co founder of The Virtues Project
