**T. Sonobe, K. Otsuka : Cluster-Based Industrial Development:: KAIZEN Management for MSE Growth in Developing Countries** before purchasing it in order to gage whether or not it would be worth my time, and all praised Cluster-Based Industrial Development:: KAIZEN Management for MSE Growth in Developing Countries:

This book attempts to provide an effective strategy for industrial development based on the KAIZEN management training experiments conducted in Ghana, Kenya, Ethiopia, Vietnam, and Tanzania. We focus on micro and small enterprises (MSEs) in industrial clusters, because clusters consisting of MSEs are ubiquitous and have high potential to grow.

About the Author TETSUSHI SONOBE is a professorial fellow at the Foundation for Advanced Studies on International Development (FASID) and a professor at National Graduate Institute for Policy Studies (GRIPS), Japan. He received a PhD in Economics from Yale University and is the co-author of *Cluster-Based Industrial Development: An East Asia Model* (Palgrave Macmillan, 2006).
