John Chandler : Identity at Work before purchasing it in order to gage whether or not it would be worth my time, and all praised Identity at Work:

This insightful book draws on a range of contemporary and classic studies to explore the connection between the personal experience of work and the wider social structures in which it takes place. Identity at Work examines key social identities relevant to the workplace, such as those based on gender, sexual orientation, ethnicity and race, disability, age, occupation, class and organizational membership. Using research from a wide variety of countries and academic approaches, this book provides a readable and engaging introduction to the issues, exploring how people experience work, understand and present themselves at work, and relate to others. Providing an accessible investigation of work and identity, this text will be valuable to students looking at organizational behaviour, HRM,

diversity management and the sociology of work.

Chandler provides us with an engaging and attractively written examination of various work-related issues, all of which relate to social identities and individual self-identities. Issues range from work and class and work and ethnicity to work and age and work and disability. - Tony Watson, Emeritus Professor of Sociology, Work and Organisation, Nottingham University Business School, UK
About the Author John Chandler is Professor of Work and Organization in the Royal Docks School of Business and Law, University of East London, UK. His previous publications include *Organizations and Identity* (1994, as co-editor) and *Organization and Management: A Critical Text* (2000, also as co-editor).
