Wilfred J. Zerbe, Neal M. Ashkanasy, Charmine E. J. Hartel : Individual Sources, Dynamics, and Expressions of Emotion: 9 (Research on Emotion in Organizations) before purchasing it in order to gage whether or not it would be worth my time, and all praised Individual Sources, Dynamics, and Expressions of Emotion: 9 (Research on

Emotion in Organizations):

Research on Emotion in Organizations is the publication of the Emonet listserv <http://www.emotionsnet.org>, which hosts the biennial International Conference on Emotion and Worklife. Chapters in the series include a selection of peer-reviewed papers from the conference, together with invited chapters by leading scholars in the field of emotion in organizational settings.

Drawing from the presentations at the 2012 International Conference on Emotion and Organizational Life held in Helsinki, Finland, supplemented by additional invited papers, the editors (professors of organizational behavior and management from the Memorial U. of Newfoundland, Canada, and U. of Queensland, Australia) present 15 chapters that explore the role of emotions in the workplace, focused primarily on the individual level (the subsequent 10th volume of this series will focus more on the group and organizational level). The contributions have been organized into three thematic sections separately concerned with the sources, dynamics, and expressions of emotions in the workplace. Distributed in North America by Turpin Distribution. --Book News Inc. Portland, OR
