**Bobbie Turniansky, A Paul Hare : Individuals and Groups in Organizations** before purchasing it in order to gage whether or not it would be worth my time, and all praised Individuals and Groups in Organizations:

Refreshing and accessible, this new text guides student and practitioner alike through the maze of approaches to the way in which people interact in organizational life. By building their text around six topics central to those who manage in organizations: people; gender; flexibility; groups; learning; and creativity; the authors of this text have

provided a clear, easily used framework for analysing the role of the individual in the group, the group in the organization, and the organization in the environment.

About the Author A. Paul Hare is professor of behavioral science at the Jacob Blaustein Institute for Desert Research at Ben Gurion University in Israel.
