**Charles Levinson : International Trade Unionism (Routledge Revivals)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised International Trade Unionism (Routledge Revivals):

As Secretary General of the ICF and previously Assistant General Secretary of the IMF, Charles Levinson played an

important part in developing the countervailing labour response to the multinational corporations. His earlier work, *Capital, Inflation and the Multinationals* (Routledge Revivals, 2013) displayed the force of his insight into the dynamics of modern economics and technology. First published in 1972, this book considers the opportunities which allow unions to command an increasing share in decisions that shape the workers' destiny. Chapters include discussions on the multinational corporations, industrial democracy and the ideas behind collective bargaining.
