Things have not changed in the white house much if at all since The Naked City was writtenBy jean M HarrisI Read this book in the 60's when it first came out. I loaned it out a couple years ago. It was never returned to me. this book gave me a much better understanding of the Government and how it is run. for fur coats and Cadillacs. As I went over it, I see that not much has changed in the senate and house of rep. It is disheartening to say the least. I think Obama is one of the smartest and sincere men we have ever had in WA. I am a big fan,and was growing up of Delano Roosevelt,

however rumors flew about him from Walter Winchell, a prominent newspaper writer and radio broadcaster in the late thirties and forties. The public was less informed of the goings on in government in those days. I am 88 as I write this. All in all, Vance Packard hit the nail on the head, however we the people cannot change much, even when we vote great woman and men to take an empty seat.0 of 1 people found the following review helpful.
