**Ad J. W. van de Gevel, Charles N. Noussair : The Nexus between Artificial Intelligence and Economics (SpringerBriefs in Economics)** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Nexus between Artificial Intelligence and Economics (SpringerBriefs in Economics):

The manuscript reviews some key ideas about artificial intelligence, and relates them to economics. These include its

relation to robotics, and the concepts of synthetic emotions, consciousness, and life. The economic implications of the advent of artificial intelligence, such as its effect on prices and wages, appropriate patent policy, and the possibility of accelerating productivity, are discussed. The growing field of artificial economics and the use of artificial agents in experimental economics is considered.
