Each chapter appears to be written by the person that is the subject of the chapter. As such you get some chapters that are nothing short of self promotion and chapters where the author has made a serious attempt to offer advice to the reader.I found the selection of "rockstars" to be interesting. I've been involved in internet marketing for a number of years and am familiar with a lot of marketers. Joel Comm included a number of well known marketers, a

number of what I would call second and third tier marketers and totally ignored some because they aren't JVZoo sellers. The book would have been much better if he hadn't limited the selection of marketers to only JVZoo sellers. I bought my copy used and would have been upset had I paid full price for the book. 0 of 0 people found the following review helpful. What Does it Take to Be an Online Rockstar JVZoo is an amazing resource for entrepreneurs to turn their knowledge into digital products and recruit hundreds or thousands in their field to promote those products. Whether you are a business consultant, lawyer, real estate agent, or even someone who knows how to build the perfect birdhouse, JVZoo allows you to put your knowledge into a format that can be sold and profited from. While the rest of the world looks for jobs, JVZoo's members create their own. In the three years that JVZoo has been around, its members have generated over \$100 million in sales revenue. Our members are mainly people who started making money online as a part-time venture. Rockstars of JVZoo is a compilation of case studies, written by people just like you, people who listened to their inner voices and created jobs for themselves. Everything you are about to read in this book has been achieved by ordinary people who did that one thing that separates entrepreneurs from the rest of society: they took action.
