I'm not a story book person, but onto the real point. This book will go in depth about the stock market and how your broker is fudging you hard and your not getting anymore money than the rest of us! Index funds are the way to go, on a side note Mint is a god send!2 of 2 people found the following review helpful. A Good OverviewBy Kindle CustomerI really loved "The Best Investment Book You'll Ever Read" and have used the simple philosophy to guide my investments ever since after vetting with two different independent financial advisers. This book is more of an overview of all the money issues you encounter and gives good advice but pretty general in nature.1 of 1 people found the following review helpful. Three StarsBy patahh common sense, no real info...
