A stunning and visceral tool to create or amplify your businessBy John C. HavensThe visuals for this book are simply stunning, both in their ability to help entrepreneurs and their depth. While I enjoyed the text immensely as well, the multiple charts, diagrams and other high quality visuals were really what sold the book to me. Having worked in PR, it also reminded me of many happy 'sticky-note' sessions I've had in the past, where you get to work different parts of your brains to create ideas and inspiration than simply relying on words. In that sense, it's the book's visceral nature that's so appealing to me.I should also note I have been friends with the authors for a number of years. I say this not just for disclosure purposes but to point out how thrilled I am for them that they were able to put their combined expertise into a book. Steve and Ja-Nae have been heavily involved in the digital/social media world for a long time, and have helped multiple individuals and businesses launch and flourish. Point being, their insights come from hard work.
